Comprehensive Controlled Substance Prescribing in the Age of Increased Regulations, Legal Challenges and Diversion

Who Should Attend?

The course is designed for physicians in all specialties, as well as APRNs and PAs, who prescribe controlled substances. The course may be particularly helpful to prescribers interested in expanding their knowledge of controlled substance prescribing, and those professionals who have been cited for inappropriate prescribing, such as prescribing large quantities. The course is designed to fulfill licensing board or credentialing requirements for remedial education.

Statement of Need

Unintentional drug overdose has become the leading cause of injury-related deaths in Ohio. In the United States, Ohio ranks the 5th highest rate of drug overdose deaths. In response to this growing drug abuse epidemic brought about by the misuse of the controlled substance of opioids, Ohio Governor, John R. Kasich, has put into place one of the nation's most aggressive and comprehensive approaches to address opioid addiction and overdose deaths. It includes a strong focus on preventing the non-medical use of prescription drugs. Several state agencies in Ohio have implemented a multi-faceted strategy to improve opioid safety, combat diversion, and reduce unintentional drug overdose deaths. New laws and guidelines have been designed to help the prescriber understand the proper use of controlled substances, the risks associated with controlled substances, and how to safely prescribe these medications. Laws and rules are changing around prescribing controlled substances, and prescribers need to be up-to-date to ensure they not only avoid disciplinary action by regulatory boards, but also to help ensure they safely prescribe controlled substances to their patients. This course will provide prescribers with educational initiatives related to current controlled substance prescribing laws as well as evidence-based resources and tools.

*Are You Safely Prescribing Controlled
Substances for Your Patients?*

February 24-25, 2018

Comprehensive Controlled Substance Prescribing in the Age of Increased Regulations, Legal Challenges and Diversion

Course Objectives

- Interpret the state and federal laws governing the prescribing of controlled substances.
- Identify evidence-based screening tools for screening and assessment of substance use and substance use disorders.
- Identify local, state and national referral resources for patients with chemical dependency.
- Describe prescribing guidelines for the safe and effective use of controlled substances, including opioid induced hyperalgesia.
- Describe legal and malpractice implications when prescribing controlled substances.
- Describe the laws and rules pertaining to APRNs and PAs who prescribe controlled substances in Ohio.
- Identify current evidence and best practices when prescribing multiple controlled substances for a patient.
- Identify and manage aberrant behaviors that are suggestive of prescription drug abuse and diversion.
- Describe alternatives to prescribing controlled substances, including interventional procedures and non-opioid medications.
- Discuss documentation best practices when prescribing controlled substances, including informed consent, controlled substance agreements and referrals.
- Identify controlled substance prescribing guidelines for the safe and effective management of weaning and withdrawal symptoms.
- Identify methods to prevent abuse, addiction, and diversion of controlled substances, including OARRS, urine drug testing and proper drug disposal.

AGENDA

Saturday – February 24, 2018

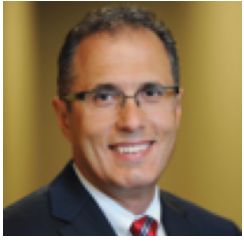

- 7:00-8:00AM **Registration and Breakfast Buffet**
- 8:00-8:15AM **Welcome and Overview**
- 8:15-8:45AM **Prescribing Controlled Substances in Compliance with the Laws & Rules**
Elizabeth Y. Collis, JD
- 8:45-9:15AM **Ohio's New Acute Pain Prescribing Rules**
Humam Akbik, MD
- 9:15-9:45AM **Medical Marijuana in Ohio: What You Need to Know**
Elizabeth Y. Collis, JD
- 9:45-9:55AM **Break**
- 9:55AM-11:10AM **Opioids: Prescribing in Today's Environment, including How to Evaluate and Document the MED (Morphine Equivalent Dose)**
Humam Akbik, MD
- 11:10-12:00PM **Deadly Mixes: Opioids, Stimulants and Depressants**
Michael Staples & Keeley Harding, DNP, APRN, CPNP-AC/PC
- 12:00-1:00PM **Lunch**
