Groton, CT  
Tel: (860) 415-8001

Boston, MA

Weston is a distinguished patent attorney specializing in biotechnology and chemical fields, renowned for his expertise in securing and enforcing patents across these and other diverse industries. With a Ph.D. in Biochemistry, he brings extensive knowledge in chemistry, biological materials, medical treatments and diagnostics, and polymers.

He excels in crafting and managing robust patent portfolios for clients ranging from small startups to Fortune 500 companies, universities, and government organizations that effectively safeguard his client's innovations. His strategic counsel continually promotes excellent results for companies and inventors through successful licensing agreements and enforcement strategies. He is committed to driving continual innovation and securing intellectual property rights that foster growth and competitive advantage in the global marketplace.

Prior to his legal career, Weston earned his B.S. from the University of Michigan followed by attending graduate school at the University of Vermont College of Medicine where he conducted pioneering research on the prothrombinase complex, contributing to top biomedical journals. As a post-doctoral fellow at Pfizer, Inc., he contributed to research teams in small molecule anticoagulant drug discovery, showcasing expertise in enzymology, protein structure analysis, and intracellular signaling.

Weston earned his J.D. summa cum laude from Quinnipiac University School of Law and is admitted to practice before the Connecticut state courts and the United States Patent and Trademark Office.

Committed to advancing innovation and securing intellectual property rights, Weston continues to be a trusted advisor and advocate for companies and inventors alike.

*Weston is not licensed to practice in Massachusetts.*
