

Kathryn N. Valentine

Associate

kathryn.valentine@dinsmore.com

Pittsburgh, PA

Tel: (412) 230-8985

Kathryn focuses her practice on intellectual property law, specifically opinion and prosecution for both domestic and foreign cases. Her background as a chemical engineer allows her to work across multiple technical areas in the chemical and mechanical arts, including catalysts, fuel additives, medical devices, and additive manufacturing. Kathryn received her chemical engineering degree from Penn State.

Prior to attending law school, Kathryn worked at an engineering firm where she provided consultative technical support to refineries executing projects in the downstream oil and gas sector. Kathryn graduated with honors from Duquesne University School of Law ranked first in her class. She was an associate editor of the *Duquesne Law Review*, and her article advocating for federal genetic antidiscrimination law was published in Volume 60.1.
